La **RB909** è una macchina a lama oscillante per recidere pelle e simili in tutte le sue figure necessarie per calzature, pelletterie, ecc. Dispone anche di un dispositivo per scarnire la pelle a 45° (Kit 45°).

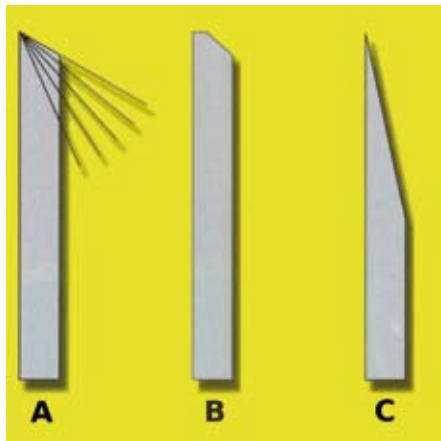

***RB909** is a blade cutting machine to skive leather and similar materials in all needed shapes for footwear and leather goods. It can be also provided with a special 45° skiving device (Kit 45°).*

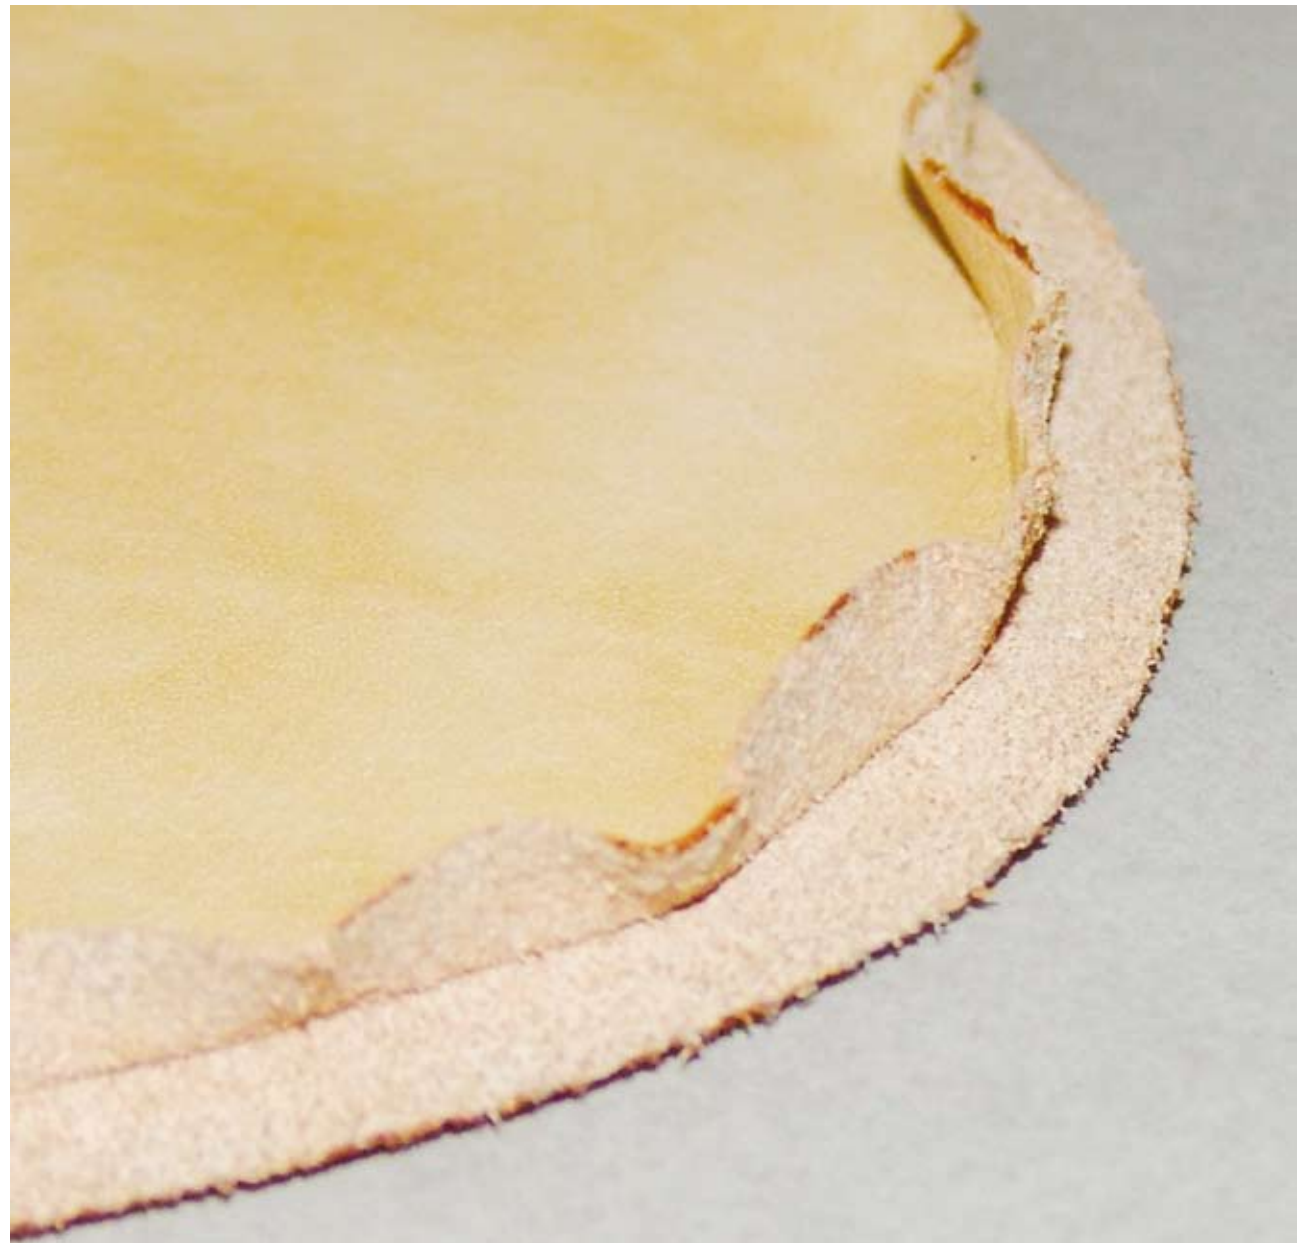

Kit "APRIBORDO"

Kit "45°"

A

NOVITÀ ASSOLUTA per la manifattura di calzature, borse, giacche, divani ecc. La nostra CUCITURA INVISIBILE non fa passare acqua nei fori dell'ago e protegge le cuciture stesse contro l'usura. In tal modo si ha più resistenza e impermeabilità in tutti i prodotti in pelle, cuoio, gomma e simili.

C

ABSOLUTE INNOVATION in manufacturing footwear, bags, jackets, sofas, etc. Our **INVISIBLE STITCHING** prevents water from passing through needles holes and protects the stitching themselves against wear and tear. In such a way all leather, rubber and similar products become more resistant and waterproof.
