

mod. MC11-L

CUCITRICE CONVERTIBILE AD AGO DRITTO E BRACCIO MOBILE ELETTRICO
STRAIGHT NEEDLE CONVERTIBLE SEWING MACHINE WITH ELECTRICAL MOVABLE ARM

Il Modello **MC11-L** è una macchina per cucire tomaie e fondi a cassetta. Si caratterizza per la cucitura a punto annodato con braccio mobile a comando elettrico, azionato a pedale. Grazie alla singolare conformazione del braccio, la MC11 L consente di raggiungere anche le parti meno accessibili della scarpa. Risulta quindi particolarmente adatta per cucire stivali, scarpe da neve e da montagna, borse, valigie ecc. I kit disponibili sono:

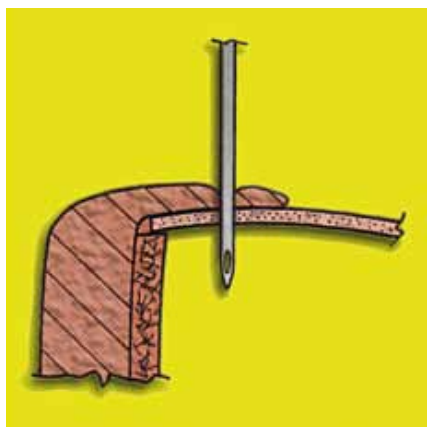

Kit "Fondo Scatola"
Kit "Borse"
Kit "2 Aghi"
Kit "Ago inclinato"

Model **MC11-L** is a machine meant to seam uppers to "box" soles. Specifically, it performs overcast stitch, through its electrically operated (by a foot lever) mobile arm. Thanks to the particular shape of its arm, Mod. MC11 - L can reach the tip and other hardly accessible parts of the shoe. Therefore this machine is suitable for boots, snow and mountain boots, handbags. Available kits are:

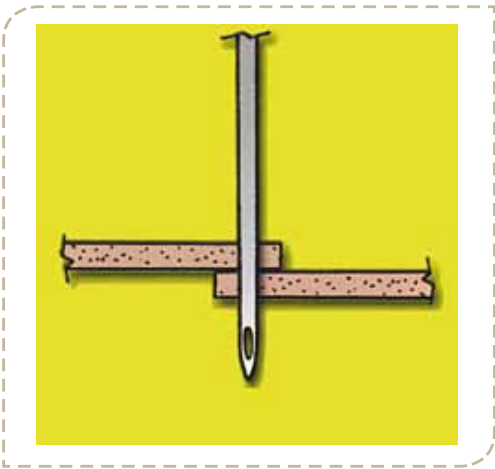

Kit "Fondo Scatola"
Kit "Borse"
Kit "2 Aghi"
Kit "Ago inclinato"
