CUCITRICE CONVERTIBILE AD AGO RICURVO PER UNIRE LA TOMAIA SUL FONDO STAMPATO

CURVED NEEDLE CONVERTIBLE SEWING MACHINE TO JOIN UPPER ON MOULDED STOCK BOTTOM

La **XM-836** è una macchina progettata per unire la tomaia direttamente al fondo con cucitura sui bordi, semplificando la modellatura ed eliminando i fori su tomaia e suola, con grande risparmio. La macchina standard riproduce perfettamente la cucitura manuale, ma producendo quanto 25 – 30 cucitori.

I kit disponibili sono:

Kit "S" - Ideal

Kit "E" - Sandalo

XM-836 is a machine conceived to directly sew uppers on moulded stock bottoms by means of edge stitching, thus simplifying modeling and avoiding holes on both upper and bottom. That means saving a great deal. Standard machine perfectly reproduces a hand sewing and is capable of producing as much as 25 to 30 shoemakers.

Available kits are:

Kit "S" - Ideal

Kit "E" - Sandalo

mod. XM-836 / Kit Sandalo - Fondo stampato
